

Trades Assistant

We currently have an exciting opportunity for a Trades Assistant (Day Shift) to learn and develop their skills.

This role is within our Field Services team, responsible for the delivery and installation of transformers to our customer sites. The position is based in Glen Waverly, but day to day you will be working in the field, often in remote locations nationally, installing transformers.

You will:

- Assist with delivery and receipt of transformers at customer sites;
- Handle, assemble, fit, dry and fill transformers;
- Conduct quality checks and problem solve installation issues;
- Perform work in a safe, efficient and cost-effective manner following strict quality controlled processes.

The successful candidate will have:

- Experience in a similar role, ideally with electrical and mechanical trades.
- Ability to work in a positive and collaborative manner within your team
- Knowledge and experience relating to power and/or distribution transformers would be an advantage.
- You will be required to respond to and resolve issues in a timely manner and have strong quality focus to get it right the first time
- A strong understanding and commitment to all safety regulations and the ability to work within strict processes is essential.

This role is in the field for the majority of the time, so the person must be willing to work in remote locations, Australia wide, for several weeks at a time.

The Field Services Department has a comprehensive skills and competency programme for career and skills progression for employees.

If you wish to be considered, please forward your CV to Cindy Prasad cindy.prasad@wtc.com.au
